

On the Interfaces of Number Theory and Special functions with Computer Algebra

Faculty of Sciences of Monastir

University of Monastir

October 29-31, 2024

Organizers

M. P. Chaudhary
Kamel Mazhouda

The aim of this conference is to provide an overview of recent developments in number theory, special functions and computer algebra, covering the three topics separately as well as their interactions. This event will provide a collaborative and supportive research environment for young researchers and an opportunity for researchers to exchange ideas. Participants are strongly encouraged to give a talk within these topics.

Conference Email: ntsfa@gmail.com; cc to, dr.m.p.chaudhary@gmail.com

NOTE: Those are interested (as participant / speaker) in this conference may kindly contact to the organizers.

Conference Address: Faculty of Sciences of Monastir, Department of Mathematics, Monastir 5000, Tunisia

Registration Period: 8:15 - 8:45 (Seminar Room)

Speakers: TBA

Conference Schedule: TBA

Lunch: TBA

Hotel reservation:

Many hotels with attractive prices in Monastir and are close to the Faculty of Sciences of Monastir, venue of the conference.
